

Webdesign

Quality web design made in good old Germany.

Additionally to webhosting, we can offer you professional website design, realization and maintenance. This means one partner for all services with our typical DIATOM quality.

What we can offer you:

Design and realization of websites considering web standards

For platform and browser spanning, professional Website.

Design and realization of barrier-free websites (websites optimized for disabled people) considering pretentious standards and demands by BITV (administrative order for barrier-free information technology)

Content management systems, portals and ecommerce solutions

Our agency can develop content management and ecommerce solutions using three of the most widely spread open source solutions on the web, TYPO3, Contenido and XTCommerce.

This means no software licences and no extra costs for you!

Design and realization of rich media content such as JavaScript, Shockwave and FLASH for more interactivity on your website

Layout and graphic design

For the right look for your Website.

Webanalysis

We can show you where your website can be potentially optimized for your website visitors.

Programing services using PHP and MySQL

Does your website need extra funktionality, such as a shop system, order forms, an online calculator, log in or member area, newsletter module, polls or voting, counter, statistics or an individual data base solution? We can help here too.

Do you like our work? Let us work for you! We look forward to hearing from you.
